CompTIA Tech+ CERTIFICATION Plus Series

ERIC REED CYBERSECURITY TRAINING
PASS ON THE FIRST ATTEMPT!™

COMPANY OVERVIEW

For over 25 years, Eric Reed Cybersecurity Training has been a trusted leader in cybersecurity education, equipping more than 60,000 professionals with the skills needed to defend against emerging cyber threats. Our mission is to empower individuals and organizations with comprehensive, hands-on training that translates directly to real-world success. Recognized with multiple industry awards—including an unprecedented 11-time EC Council Instructor of the Year and 7-time Circle of Excellence honoree—we combine innovative delivery methods with a passion for excellence to ensure our students achieve certification success on the first attempt

COMPTIA TECH+

The CompTIA Tech+ certification is the perfect starting point for anyone beginning a career in IT. This foundational course provides the essential knowledge and practical skills needed to understand modern technology, support users, and build confidence in a technical environment.

In this instructor-led training, Eric Reed breaks down complex technology concepts into simple, real-world explanations designed to help you truly understand — not just memorize — the material. You'll learn how computers work, how networks connect, how basic security protects systems, and how to troubleshoot common technical issues.

COURSE OBJECTIVES

1. IT Concepts & Fundamentals
2. Infrastructure & Hardware
3. Applications & Software
4. Cybersecurity Fundamentals
5. Troubleshooting & Support

SALARY RANGE

$35 – $55,000 per year

(entry-level IT support roles)

These figures are approximate and depend on location, experience, and job role. Higher salaries are usually seen in major tech hubs and with significant experience.

JOB ROLES

- Help Desk Technician
- IT Support Specialist
- Technical Support Representative
- Desktop Support Technician
- IT Support Assistant
- Junior IT Technician
- Service Desk Analyst (Tier 1)

ONLINE LIVE LEARNING   **ON-DEMAND LIVE LEARNING**

ONLINE LIVE & ON-DEMAND LIVE

All the benefits of live, instructor-led training with the convenience of on-demand.

- **Online Live:** Attend our scheduled sessions in real time (Monday–Friday). Get immediate interaction with the instructor and fellow students.

- **On-Demand Live:** Access recordings of the most recent live sessions on your own schedule, while still having direct instructor support.

- **Flexible Scheduling:** Choose a structured approach—one-week bootcamp (M–F), two nights a week for five weeks, or every Saturday for five weeks. Need more wiggle room? Adjust any schedule to fit your lifestyle!

Module 6.0: Applications and Software

Module 7.0: Operating Systems

Module 8.0: Hardware

Module 9.0: Databases

Module 10.0: Coding

Module 11.0: The Future of Tech

★★★★★

"It's was a great class that covered all aspects of security. Most importantly, I appreciate the fact that you are giving up your own time to assist us and maintain a sharedrive with the latest security tools and informative papers even after the class is over. I was able to pass the test after one week of attending the training."

-Shadi Ehalabi
