

Certified Information Security Manager®

ISACA Certified Information Security Manager (CISM)

ERIC REED

CYBERSECURITY TRAINING

PASS ON THE FIRST ATTEMPT!™

COMPANY OVERVIEW

For over 25 years, Eric Reed Cybersecurity Training has been a trusted leader in cybersecurity education, equipping more than 60,000 professionals with the skills needed to defend against emerging cyber threats. Our mission is to empower individuals and organizations with comprehensive, hands-on training that translates directly to real-world success. Recognized with multiple industry awards—including an unprecedented 11-time EC Council Instructor of the Year and 7-time Circle of Excellence honoree—we combine innovative delivery methods with a passion for excellence to ensure our students achieve certification success on the first attempt

ISACA CISM

The Certified Information Security Manager (CISM) is a globally recognized cybersecurity certification offered by ISACA that focuses on the management and governance of enterprise information security programs. It is designed for experienced IT and security professionals responsible for developing, managing, and overseeing an organization's information security strategy. The certification emphasizes aligning security initiatives with business goals, managing enterprise risk, and implementing effective security governance and incident management practices. CISM validates the ability to design and manage a comprehensive security program that protects organizational assets while supporting overall business objectives.

ONLINE LIVE LEARNING

ON-DEMAND LIVE LEARNING

ONLINE LIVE & ON-DEMAND LIVE

All the benefits of live, instructor-led training with the convenience of on-demand.

- **Online Live:** Attend our scheduled sessions in real time (Monday–Friday). Get immediate interaction with the instructor and fellow students.
- **On-Demand Live:** Access recordings of the most recent live sessions on your own schedule, while still having direct instructor support.
- **Flexible Scheduling:** Choose a structured approach—one-week bootcamp (M–F), two nights a week for five weeks, or every Saturday for five weeks. Need more wiggle room? Adjust any schedule to fit your lifestyle!

COURSE OBJECTIVES

- Understand information security governance and strategy
- Manage enterprise risk and security frameworks
- Develop and manage information security programs
- Implement security policies, standards, and procedures
- Manage security incidents and response processes
- Align security initiatives with business objectives

SALARY RANGE

CISM → \$130,000 – \$200,000

These figures are approximate and depend on location, experience, and job role. Higher salaries are usually seen in major tech hubs and with significant experience.
